Barry Baer (Colonel, US Army, Ret.) appointed to MedAware Systems International, Inc.'s Audit Review Committee

February 24, 2015 - Broomfield, Colorado

The Board of Directors of MedAware Systems International, Inc. announced today that Barry Baer will join the Board's Audit Review Committee as an independent member.

Mr. Baer currently serves as the CFO, Secretary, and Treasurer of publicly traded NeoMedia Technologies (NEOM), as well as the CFO, Secretary, and Treasurer of startup Prosocial Applications, Inc., developing mobile apps for personal health records.

He has served as CFO for a number of publicly traded and privately held companies. From 2006 through 2013, he served as CFO, Secretary, and Assistant Treasurer for NASDAQ listed company Ecotality (ECTY). He also served as CFO of publicly traded holding company Obsidian Enterprises (OBDE). Mr. Baer served as the COO and CFO of privately held Pharmaceutical Corporation of America.

"Barry brings a wealth of finance skills and public audit experience," says Michael Willis, CEO. "His independent oversight of our audit processes and procedures will insure that MedAware Systems adheres to the highest level of standards of practice, ethics, and compliance." He adds.

Mr. Baer served as an officer in the U.S. Army for almost 27 years, retiring at the rank of colonel. Service included commanding an armored cavalry troop in Vietnam, a finance battalion in Germany and an airborne finance brigade during the First Gulf War. After retiring from the Army, he served as Director, Department of Public Works, for the City of Indianapolis. He also served as a member of State of Indiana Unemployment Insurance Trust Fund Board of Directors. He currently serves as a trustee of the University of Colorado Foundation.

Mr. Baer holds a BA (1965) and an MBA (1972) from the University of Colorado and is a CPA.

ABOUT MEDAWARE SYSTEMS INTERNATIONAL, INC.

MedAware Systems International, Inc., is a British Columbia company with a wholly-owned subsidiary, MedAware Systems, Inc. located in Broomfield, Colorado. The Company is developing the world's first database of all available medical research information where data have been extracted, normalized and standardized to provide fast and highly accurate search and retrieval of evidence-based medical treatments and outcomes. With data precisely filtered by patient profile and disease, this subscription service will eliminate today's cumbersome, time-consuming, and highly inaccurate keyword searches. The service also offers instant meta-analysis of data across numerous studies, providing users information from tens, hundreds, or thousands of studies in minutes.
